

**7 October 2016**

## Power cable connection work - Homebush

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit [westconnex.com.au/M4East](http://westconnex.com.au/M4East).

From **Wednesday, 12 October 2016**, work will be undertaken to complete the connection of the recently installed power cable in Homebush.

To ensure the safety of workers and motorists, this work will take place **between 7.00 pm and 6.00 am Monday to Friday**. A map of the work area and a calendar showing nights of work are provided overleaf.

This work will take **three nights to complete** and will include:

- barrier installation and removal
- setting up temporary worksites
- using a vacuum truck to locate existing services
- opening pits
- connecting cables
- backfilling and temporary reinstatement of the work area. Permanent restoration will follow.

There will be some noise associated with this work, however every effort will be made to minimise the impact of work, including by completing road cutting activities before midnight, using non-tonal reversing beepers on machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

High noise work on Ismay Street, Powell Street and Allen Street will occur **before 10.00 pm**. There will be no noisy work occurring on the third night.

Equipment used during the work will include concrete saws, trucks, hand tools, lighting equipment, compactors and excavators.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers. Access to properties will be maintained at all times. Some parking restrictions may be in place during work hours.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
