

## Changes to the pedestrian footbridge – Parramatta Road, Ashfield

Further to our Notification N162 on Friday, 6 January 2017, from **Sunday, 28 May 2017** work will continue to finalise the realignment of the stairs on the western side of the pedestrian footbridge on Parramatta Road near Bland Street, Ashfield. A map of the work area is provided overleaf.

To allow for the realignment of Parramatta Road and the construction of the tunnel portals, the western stairs have been replaced with new stairs that connect with Bland Street. To minimise the impact to the community, the staircase was been precast offsite and was installed as a single unit using a mobile crane.

This work will be undertaken **between 9.00 pm and 5.00 am Sunday to Friday**.

The work is expected to take **up to three shifts** to complete, weather dependent, and will include:

- lifting screens into position
- fixing the screens to the pedestrian stairs.

Equipment used for this work will include an electronic work platform and hand tools.

Pedestrian diversions will be in place while this work is being undertaken, however **access to the footbridge will be maintained throughout the work**. Please follow the signage and the direction of traffic controllers.

Lane closures will be in place on Parramatta Road in the vicinity of the night work. If you travel along the work route, please allow extra travel time and follow the direction of traffic controllers and signage.

There will be some noise associated with this work. Every effort will be made to minimise the impact of work, including turning off equipment and vehicles when not in use, and directing noisy equipment away from residences wherever possible.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

Notification reference: N162a

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
