

21 February 2017

Noise wall construction, Homebush

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

From **Monday, 27 February 2017**, a section of the existing M4 Motorway noise wall adjacent to 9 Verley Drive's visitor car park will be removed in order to allow for the commencement of piling for the new permanent noise wall. A temporary wall will be in place whilst the new wall is being constructed. A map showing the work area is provided overleaf.

Residents directly adjacent to new noise walls will receive separate consultation once we further progress the design.

Works will be undertaken between:

- **7.00 am - 6.00 pm, Monday to Friday**
- **8.00 am - 1.00 pm, Saturday**

You will be notified if work is required near your property outside of these hours.

There may be some noise associated with this work, however every effort will be made to minimise the impact of work, including the use of non-tonal reversing beepers on all machinery, turning off equipment and vehicles when not in use and, where possible, directing noisy equipment away from residences.

If you have an enquiry or complaint about this work, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N174

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
