

Temporary car park – Martin Street, Haberfield

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit westconnex.com.au/M4East.

From **Thursday, 4 May 2017** the M4 East Project will be constructing a temporary car parking facility near the corner of Martin Street and Ramsay Street, Haberfield. The site is owned by Roads and Maritime Services (RMS) and will be used by project personnel throughout the duration of construction (until early 2019). A map showing the location of the site is provided overleaf.

Work to prepare the area for use will be undertaken between **7.00 am and 6.00 pm Monday to Friday** and **8.00 am and 1.00 pm on Saturday**. Once this work has been completed, the area may be accessed up to 24 hours per day, 7 days per week. It is expected however that the area will be utilised predominantly during standard daytime construction hours.

The work to prepare the car park will include:

- demobilising the existing construction compound and ancillary facilities
- delineating the proposed car parking area and line marking
- installing fencing around the car park and a lockable gate.

Once work to fit out the car park has been completed, the area will be used for approximately 35 project vehicles to park.

If you have an enquiry or complaint, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au.

Notification reference: N208

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
