

Noise Wall Work - Wattle Street, Haberfield

From Wednesday, 2 January 2019 work will continue to complete construction of the permanent noise wall and landscaping along Wattle Street, Haberfield, which runs along the back of the even-numbered properties on Walker Avenue. A map highlighting the work area is provided overleaf.

Work is expected to take up to two months to complete. If work cannot be completed during this time, the work will be rescheduled and you will be notified.

Please note, for safety reasons, some work may need to be completed outside of standard construction hours, when lane closures on Wattle Street are required.

This work will involve:

- Installing acrylic panels;
- Finalising height and repairing Hebel panels (where required);
- Painting the noise wall and finalising landscaping.

Equipment used during the work will include cranes and hand tools.

How this affects you

During this work there may be lane closures along Wattle Street. Traffic control will be in place to ensure the safety of motorists, residents and workers. If you travel along the route, please allow extra travel time and follow the direction of traffic controllers and signage.

There will be some noise associated with this work. Every effort will be made to minimise this by turning off equipment and vehicles when not in use and where possible, directing noisy equipment away from residences.

If you would like to receive email updates about the scheduling of out of hours work near your property - or if you have an enquiry or complaint about this work - please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email info@M4East.com.au
