

28 September 2016

Temporary road closures – Bakers Lane, St Peters

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. Visit westconnex.com.au/NewM5 for more information.

Further to the notification on 20 June 2016, work is underway to install underground power cabling from St Peters to the New M5 construction site at the corner of Canal Road and the Princes Highway.

From **Tuesday 4 October 2016**, cabling work will be carried out along Bakers Lane. This work will take approximately two weeks to complete, weather permitting.

To safely undertake this work, temporary road closures are required along Bakers Lane between Mary Street and Alfred Street. Detours will be established and signage will be in place to direct motorists and pedestrians. A map showing the location of the closure and detour is provided overleaf.

There will be further intermittent closures of Bakers Lane until late November 2016. Pedestrians and motorists will be informed of upcoming closures via variable message signage installed around the work area.

The temporary road closures may restrict access to driveways. The project team will contact any directly impacted residents and businesses to discuss their access requirements and make any necessary arrangements prior to the closures.

Traffic control will also be in place along other streets in St Peters to complete the cabling work. If you are travelling through the area, please allow extra time for your journey and follow the signs and directions from traffic controllers.

If you have any questions about this work, please call 1800 660 248 and ask to speak to a member of the New M5 community engagement team.

Notification No. 154

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
