

27 September 2016

Construction Compound – Campbell Street, St Peters

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. For more information, visit westconnex.com.au/NewM5.

To support the delivery of the New M5 and local road upgrades in St Peters, a construction compound will operate from **4-16 Campbell Street, St Peters**. A map of the location of the compound is provided overleaf.

The compound will be used for:

- storing machinery and equipment
- storing materials such as sand and pipes
- off-street parking for workers
- worker amenities, such as toilet facilities.

The compound is temporary and will ultimately form part of the widened Campbell Street upgrade work.

Entry to the compound will be via Campbell Street and the exit will be via Albert Street.

Intermittent access to the compound may be required out of hours and every effort will be made to minimise any disturbance to nearby residents.

If you would like further information or want to discuss the location of the construction compound, please call 1800 660 248 and ask to speak to a member of the New M5 community engagement team or email info@newm5.com.au.

Notification no: 155

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
