

14 October 2016

Update – Night work on Canal Road and the Princes Highway, St Peters

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. For more information, visit westconnex.com.au/NewM5.

Further to our notification on 31 August 2016, night works are continuing along Canal Road and the Princes Highway at the construction site for the St Peters Interchange. Works recently undertaken at night included the removal of commercial buildings at 1-3 Canal Road, underground power installation, vegetation removal and installation of temporary noise walls.

Timing and work hours

Night work will recommence on **Wednesday 19 October 2016** and continue intermittently until **late November 2016**, weather permitting. The work will be undertaken between **7.00 pm and 5.00 am from Monday to Saturday**. There will be no work on Sunday or public holidays.

Night work activities

Activities that will be carried out at night include:

- installing temporary noise walls and concrete barriers along the Princes Highway
- delivering plant and equipment via access points on Albert Street and Canal Road
- installing underground utility services
- realignment of a sewer line within the site boundary near Canal Road
- tunnel portal works in preparation for tunnel excavation.

Equipment to be used includes excavators, cranes, chainsaws, hand tools, concrete saws, vacuum trucks, generators, concrete trucks, lighting towers and construction vehicles.

Every effort will be made to minimise impacts, including completing noisier activities earlier in the night where possible.

Traffic changes

Changed traffic changes, including temporary lane and footpath closures and the removal of street parking will continue to be in place during this work. Traffic control and signage will be in place to assist road users through these changes. This work is being undertaken at night under traffic management for the safety of workers, motorists, pedestrians and cyclists.

If you have a question or complaint about this work, please call 1800 660 248 (24 hours) and ask to speak to a member of the New M5 community engagement team.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
