

14 October 2016

Night works on Bestic Street, Rockdale

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The New M5 will duplicate the existing M5 corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of the King Georges Road Interchange and a new interchange at St Peters. For more information, visit westconnex.com.au/NewM5.

Further to the notification on 20 July 2016, work is underway to install underground power cabling from an existing substation on Bryant Street, Rockdale to the New M5 construction site at Kogarah Golf Course. A map showing the location of the work is provided overleaf.

From **Thursday 20 October 2016**, cabling work will be undertaken across Bestic Street between William Street and Highclere Avenue. This work will be undertaken intermittently over **five nights**, weather permitting.

Due to the high traffic volumes on Bestic Street, this work will be carried out at night between **8.00pm and 5.00am, Monday to Saturday**. No work will be carried out on Sundays and public holidays. Every effort will be made to minimise impacts associated with this work, including completing noisy works early in the night.

Work will involve:

- Excavating and trenching the road, footpath or verge
- Installing and connecting power cables
- Implementing traffic and pedestrian management to ensure the safety of motorists, residents and workers.

Equipment used during this work will include excavators, directional drill, vacuum trucks, road saws, rock hammers, lighting towers, generators, compressors, temporary fencing, and pumps.

Changed traffic conditions during the works will include reduced speed limits, lane closures and footpath detour along Bestic Street. Traffic control and signage will be in place to assist road users, pedestrians and cyclists through the changed conditions.

If you have any enquiries or complaints about this work, please call **1800 660 248** (24 hours) and ask to speak to a member of the New M5 community engagement team.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.

Notification No. 162
