

13 July 2017

Night work to reinstate roads and footpaths – Commercial Road, Kingsgrove

We recently installed underground electrical cabling to supply high voltage power to the New M5 construction compound at Commercial Road.

The final stage of this work involves permanently reinstating the areas affected by the cable installation to its original condition. This will involve removing the temporary asphalt surface and constructing a new section of footpath.

Equipment used during the work will include excavators, concrete-cutting saws, hand tools, concrete trucks and light vehicles.

Night work

Due to high traffic volumes on Commercial Road and for the safety of workers and motorists, the work will be carried out over **two nights from Monday 17 July 2017** (weather permitting). The work will be undertaken **between 8:00 pm and 5:00 am**. A map of the work area is provided over the page.

Deliveries of construction vehicles may also be undertaken outside of standard construction hours due to day time road restrictions.

Temporary traffic and pedestrian changes

Changed traffic conditions, including reduced speed limits, lane closures and pedestrian detours will be in place during this work. Traffic access will be maintained in both directions.

Temporary footpath restrictions will be required as part of this work. Traffic control and signage will be in place to assist road users, pedestrians and cyclists through the changed conditions.

Construction impacts

Every effort will be made to reduce the impact to residents while work takes place. We will implement reasonable and feasible measures to minimise noise impacts on local residents. Noise monitoring will be conducted for any work that takes place outside of standard hours. Any dust generating activities will be watered down to minimise dust.

More information

If you would like further information or want to discuss the reinstatement plans, please call 1800 660 248 and ask to speak to a member of the New M5 community engagement team.
