

Night work in Kingsgrove

Work will be undertaken in sections of the road verge, on the M5 East between Kingsgrove Road and King Georges Road to progress construction in Kingsgrove. A map showing the location of the work is provided overleaf.

Due to the high traffic volumes on the M5 East and for the safety of workers, pedestrians and motorists, this work will be carried out over four nights during the existing M5 East maintenance shutdown period from **Sunday 17 September 2017** (weather permitting). The work will be undertaken between **6.00 pm and 5.00 am**.

The work will include:

- Removing existing concrete safety barriers from the road verge, repositioning and adding new barriers
- Installing safety screen guards along barriers
- Removing noise wall panels south of the motorway
- New line markings to set up lanes for site access
- Installing survey monitoring equipment within the road surface
- Continuing work on underground utility services
- Relocation of telecommunication services and inspection of the drainage line
- Installing signage and bollards near site access gates
- Road sweeping
- Excavating east and westbound trough structure
- Installing planks at the cut and cover sites to form the tunnel portals.

Construction Impacts

Some of this work will be noisy. Noise monitoring will be conducted for all work undertaken outside of standard construction hours. Any dust generating activities will be watered down to minimise dust. Traffic control and signage will be in place to assist road users through these changed traffic conditions.

We will use excavators, a geotechnical drill rig, lighting towers, concrete cutters, road sweeper, vacuum truck, generators, cranes, hand drills, compressors and pumps as well as construction vehicles.

This work is part of the New M5 project which will duplicate the existing M5 tunnel and double traffic capacity of the M5 East corridor. For more information, visit westconnex.com.au/NewM5.

If you have any complaints or enquiries about this work, please call **1800 660 248** (24 hours) and ask to speak to a member of the New M5 community engagement team or email info@newm5.com.au.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
