Piling works to construct Motorway Control Centre on Burrows Road, St Peters

The Motorway Control Centre building is scheduled to be constructed on Burrows Road as part of the New M5 project. To enable the works, pre-cast piles need to be installed to form the foundation of the building.

Cranes using 'pile hammers' will be used to drive the precast concrete piles approximately 17meters below ground level.

Timing of work

Piling on Burrows Road is expected to start from **Monday 18 December 2017 and last ten weeks**, weather permitting. A map showing the work area and timing of work is provided overleaf.

Work will occur between **7am and 6pm from Mondays to Fridays, and on Saturdays between 8am and 1pm**. Pile driving works will start from 8am. Some work may be required outside of these hours. Businesses will be consulted if work is required outside of these hours.

Noise and vibration – minimising the impact on businesses

Nearby businesses will likely experience vibration and noise generated by piling works.. Piling is a common technique used in urban areas. There is no immediate cause for concern If you feel vibration in your property.

The following measures will be in place to reduce the impact on nearby businesses:

- Ongoing vibration and noise monitoring to ensure levels are within allowed limits
- Scheduling regular breaks during noisier piling works
- Programming the work to be completed at each location as soon as possible
- Regular watering to manage the release of any dust.

We understand the inconvenience this activity may cause surrounding businesses and thank you for your patience whilst we carry out this work.

If you have a question about this work, please **call 1800 660 248** and ask to speak to a member of the New M5 community engagement team or **email info@newm5.com.au**. The New M5 Community Information Centre is open during business hours at 27 Burrows Road, St Peters.
