

## Night work in Kingsgrove

Night work will be undertaken in sections of the road verge, on the M5 East between Kingsgrove Road and King Georges Road to progress construction of the New M5 project in Kingsgrove.

### What we're doing

Work will be carried out over four nights during the existing M5 East maintenance shutdown period from Sunday 20 May to Wednesday 23 May (weather permitting). These works will be undertaken outside of normal construction hours for the safety of workers and motorists. A map showing the location of the work is provided overleaf.

Activities for the May shutdown include:

- North and south cut & cover excavation works
- Construction of a new gate off the M5 (westbound)
- Line marking & scrubbing
- Barrier movement
- Installation and removal of signage
- Road sweeping
- Shotcreting
- CCTV inspection (stormwater drain)

### How this affects you

Some of this work will be noisy. Noise monitoring will be conducted for all work undertaken outside of standard construction hours. Any dust generating activities will be watered down to minimise dust. Traffic control and signage will be in place to assist road users through these changed traffic conditions.

We may use excavators, lighting towers, concrete cutters, road sweeper, vacuum truck, generators, cranes, oxy cutters, concrete agitator, hand drills, Line marker and line remover, elevated work platforms, compressors and pumps as well as construction vehicles.

This work is part of the New M5 project which will duplicate the existing M5 tunnel and double traffic capacity of the M5 East corridor. For more information, visit [westconnex.com.au/NewM5](http://westconnex.com.au/NewM5)

We apologise for any disruption these works may cause you.

### When

From Sunday 20 May to Wednesday 23 May 2018
