

Rock hammering Arncliffe

Rock hammering will be undertaken within your area over the next week and will continue intermittently **until November 2018**. This work will take place 60-65 metres underground in these locations (please see map overleaf).

What we're doing

Rock hammering works require us to use rock hammers and rock saws. This is to facilitate the trimming of the tunnel profile, levelling of the tunnel floor and the detailed excavation finishes that cannot be practically excavated by the roadheaders. The works will be carried out in various locations.

The locations will be:

- Forest Road
- Stanley Street
- Eden Street
- Firth Street
- Wardell Street
- Barden Street

Rock hammering works below residential properties will generally be undertaken during standard construction hours to minimise disruption. There will be rock hammering works 24/7 in areas away from residential properties.

Hours work will be as follows:

- Monday to Friday 7am to 6pm
- Saturdays 8am to 1pm

No rock hammering activities will take place on Public Holidays or Sundays in this area.

We will use excavators with hammers attachments, rock saws and haul trucks.

How this affects you

There should be little impact to residents. However there may be a slight tapping sound that can be heard when work is being done closer to the residential areas.

If you have a question about this work, please call 1800 660 248 (toll free) and ask to speak to a member of the New M5 community engagement team or email info@newm5.com.au

Rock Hammering in Arncliffe
