

## Continuing underground work in your area, St Peters

Work is continuing on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

### What we're doing

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. For more information, visit [www.westconnex.com.au/NewM5](http://www.westconnex.com.au/NewM5)

Underground work continues in your area, this activity may involve rock hammering and underground blasting during regular construction hours:

7am – 6pm Monday to Friday

8am – 1pm Saturday

No hammering or blasting work will occur on Sundays or Public Holidays.

### How this affects you

#### Hammering

Hammering requires us to use rock hammers and you may hear some tapping from the hammers used; however, depending on the ground conditions, building type and existing background noise it is possible that you will not notice the work underneath your property.

#### Blasting

Blasting will continue underground near Canal Road, Mary and Alfred Streets St Peters. Blasting is a safe and commonly used method of road tunnel excavation in addition to roadheader excavation. You may feel a series of small vibrations. Several vibration monitoring systems have been set up to measure vibration from the blast.

The blasting will be approximately 30 meters underground and will be conducted by licensed experts. Every effort will be made to minimise impacts on local residents and all blasting activities will be within the strict vibration requirements set out in the New M5 Conditions of Approval.

### When

Continuous work until **30 September 2018** (weather permitting)

### Hours of operation

7am – 6pm Monday to Friday  
8am – 1pm Saturday

### Where

M5 Site, St Peters Interchange
