

Night work in Kingsgrove & Bexley North

Night work will be undertaken in sections of the road verge, on the M5 East between Bexley Road and King Georges Road to progress construction of the New M5 project in Kingsgrove and Bexley North.

What we're doing

Work will be carried out over four nights during the existing M5 East maintenance shutdown period from Sunday 19 August to Wednesday 22 August 2018 (weather permitting). These works will be undertaken outside of normal construction hours for the safety of workers and motorists. A map showing the location of the work is provided overleaf.

Activities for the August shutdown will include:

- North and south tunnel portal works including excavation work, piling, concreting and shotcreting
- Installation of onsite overhead pedestrian bridge (for construction workers)
- Barrier movement, line marking, hydro blasting removal of old line marking
- Milling, resurfacing and asphaltting on westbound lanes
- Boreholing and tree removal to facilitate tolling gantry installation at the off ramp and on ramps located at King Georges Road Beverly Hills
- Potholing along southern shared user path at Bexley North to facilitate tolling gantry installation
- Service investigation to facilitate tolling gantry installation
- Signage removal and Installation of new signage
- CCTV inspection of stormwater drain
- Road sweeping

Equipment used will include excavators, lighting towers, concrete cutters, road sweepers, vacuum trucks, generators, cranes, elevated work platforms, oxy cutters, concrete agitators, hand drills, line markers and line removers, elevated work platforms, compressors, lighting towers, piling rigs, drill rigs and pumps as well as other construction vehicles.

BUILDING OUR FUTURE

Constructed by

How this affects you

Some of this work will be noisy. Noise monitoring will be conducted for all work undertaken outside of standard construction hours. Any dust generating activities will be watered down to minimise dust. Traffic control and signage will be in place to assist road users through these changed traffic conditions.

This work is part of the New M5 project which will duplicate the existing M5 tunnel and double traffic capacity of the M5 East corridor. For more information, visit westconnex.com.au/NewM5
