

## Upcoming work to alter traffic conditions on Euston Road Alexandria from mid-October (implementation date to be confirmed)

New pavement construction work is progressing along the western (Sydney Park) side of Euston Road south of the Sydney Park Road and Huntley Street intersection.

New Ausgrid, Telstra, Optus and water utilities have been installed and the road pavement and kerb construction is nearing completion. From mid-October 2018 the construction work area will move from the western side to the eastern side of Euston Road, south of the intersection with Sydney Park Road and Huntley Street.

Traffic will continue to travel southbound only, with vehicle parking available on the western side.

This road configuration is expected to be in place for approximately 12 months.

Work to prepare the implementation of the changed traffic conditions will be carried out at night and over the weekend in early October. Dates will be provided once confirmed.

### What we're doing

Work will take place to relocate concrete barriers, remove existing line marking and install new line marking to realign traffic from the current road alignment on the eastern side of Euston Road onto the newly constructed road alignment on the western side.

Once implemented, there will be some changes to property access along the eastern side of Euston Road. Access will be maintained for businesses via Euston Road or Burrows Road.

Please see maps overleaf.

### Traffic changes will remain in place for approximately 12 months from mid-October

- Traffic will travel southbound in the traffic lane adjacent to Sydney Park
- Access to business properties will be facilitated. Please review the maps overleaf and contact us if you would like to discuss your property access arrangements.

### When

Night time and weekend work to take place in early October ahead of the implementation of changed traffic conditions from mid-October

### Where

Euston Road south of the Sydney Park Road and Huntley Street intersection Alexandria
