

## Site Establishment - Arinya Street Kingsgrove

### What we're doing

#### Site Establishment

Site establishment will take place in the grassed area adjacent to the M5 East between Arinya and Bobadah Streets, Kingsgrove.

The initial work will see fencing erected around a section of the grassed area in preparation for the laying of a concrete slab for the tolling gantry technical shelter, located at the end of Arinya Street, Kingsgrove

Piling will be conducted at the end of Arinya Street which will be followed by concrete pours for the gantry footings.

#### How this affects you

During this work an exclusion zone will be enforced to ensure the safety of the public and our workers and will also allow equipment access.

Signage will be in place to assist pedestrians and cyclists through these changed conditions.

Noise modelling has been conducted for work, however; this work will take place during the day to minimise the impact on the residents.

The equipment used will include an excavator, construction vehicles, piling rig, cranes, concrete pump, concrete truck, vacuum truck, hand tools, concrete cutter, generator lighting and a plate compactor.

A map showing the location of each work is provided overleaf

If you have any enquiries about this work, please call 1800 660 248 (24 hours) and ask to speak to a member of the New M5 community engagement team or email [info@newm5.com.au](mailto:info@newm5.com.au).
