Australian Government

BUILDING OUR FUTURE

Constructed by

Due to the necessary safety and traffic approvals for us to carry out the required traffic changes, this work must be undertaken at night outside of peak volume times.

How this affects you

Equipment used during the work will include excavators, vacuum trucks, road saws, light towers, construction trucks, hand tools, light vehicles, compaction equipment and traffic control.

This work is expected to generate intrusive noise. Every effort will be made to minimise noise and light spill associated with this work by turning off equipment and vehicles when not in use and directing noise and light generating equipment away from residential properties where possible.

Parking restrictions will be in place adjacent to the work areas on Hutchinson Street and May Street from 7am Monday 17 September for the duration of the work.

The site compounds on May Street and along the southern side of Campbell Street will be used intermittently throughout the work for storage of materials and vehicle parking.

Night work on Campbell Street (west), Hutchinson Street, May Street and Bedwin Road
