

Night Work on Burrows Road near Canal Road St Peters

Night work is required on Burrows Road, near Canal Road, to facilitate Ausgrid and Optus works. These works will be undertaken the week of 15 October 2018 (weather permitting) at night, outside of peak traffic volume times and under traffic management for the safety of workers, motorists, pedestrians and cyclists.

What we're doing

A trench will be excavated on the southern footpath of Burrows Road to facilitate installation of Ausgrid and Optus conduits. An exclusion zone will be enforced around the work site to ensure the safety of the public and our workers.

How this affects you

One lane will be closed on Burrows Road during the work, however traffic will be maintained in both directions. The southern footpath will also be closed to pedestrians during these works. Traffic control will be in place to assist drivers and pedestrians navigate through these changed conditions.

At the end of each shift the footpath will be covered with a road plate to allow pedestrian access and upon completion of the work the trench will be backfilled, and the footpath reopened to allow regular pedestrian access.

Noise modelling has been conducted for these works which has determined minimal impacts to the surrounding residents and businesses.

An excavator, rock breaker, construction vehicles, compaction equipment, vacuum truck, hand tools, concrete cutter and generator lighting will be used to complete the works.

We apologise for any inconvenience this may cause

If you have any enquiries about this work, please call 1800 660 248 (24 hours) and ask to speak to a member of the New M5 community engagement team or email info@newm5.com.au.
