

Night work in Bexley North

Night work will be undertaken on the corner of Bexley Road and the M5 East Motorway to progress construction of the Motorway Operation Complex at Bexley North.

What we're doing

Work will be carried out to support activities inside the shaft commencing Wednesday 9 January (weather permitting). These works will be undertaken outside of normal construction hours for the safety of workers in the proximity to high suspended loads.

Activities on the night shift will include:

- Construction of formwork
- Stripping of formwork
- Fixing of reinforcing steel

Equipment used for this work will include a tower crane, generator, lighting tower, elevated work platforms and hand tools.

How this affects you

We do not anticipate a noise impact to the community; however, noise monitoring is conducted for all work undertaken outside of standard construction hours.

A map showing the location of the work is provided overleaf.

This work is part of the New M5 project which will duplicate the existing M5 tunnel and double traffic capacity of the M5 East corridor.
