Night work on Princes Highway, St Peters

Night work will take place in three locations along Princes Highway near the Campbell Street intersection to carry out various utility work. Due to safety and traffic, this work must take place at night outside of peak volume times.

What we’re doing
Night work will be undertaken to install underground power and communications conduits along the western side of Princes Highway, north of Campbell Street. The work schedule is as follows:

- Monday 18 February from 7pm to 5am
- Wednesday 20 February from 7pm to 5am
- Friday 22 February from 7pm to 5am

Night work will also take place on Princes Highway south of Campbell Street.

On Monday 18 February from 7pm to 5am, work will be undertaken to haul a cable through recently installed conduits at the south-western corner of Princes Highway and Campbell Street.

On Thursday 21 February from 7pm to 5am, night work will be carried out to remove redundant overhead power cables from existing power poles along the eastern side of Princes Highway south of Campbell Street. This follows recent utility work to relocate power conduits and overhead cables to an underground supply.

Please see the map overleaf to further explain the locations of this work.

Traffic changes
Mon 18 Feb, Wed 20 Feb, Thurs 21 Feb and Fri 22 Feb from 7pm to 5am

- Lane closures will be in place on Princes Highway near the Campbell Street intersection. Two-way traffic will be maintained at all times
- Pedestrian access on Princes Highway will be maintained under the direction of traffic control. For safety reasons, pedestrians may be directed to cross the road to the opposite footpath.
Parking restrictions will be in place along Princes Highway prior to each night work shift.

**How this affects you**
Equipment used during work on Princes Highway north of Campbell Street will include a road saw, rock breaker, excavator, vacuum truck, construction vehicles, compaction equipment, lighting towers and traffic control. This work is expected to generate high noise.

Equipment used during work on Princes Highway south of Campbell Street will include an elevated work platform, construction vehicles, hand tools, a mobile crane, cable hauling equipment, lighting towers and traffic control. This work is expected to generate some noise.

Every effort will be made to minimise noise and light spill associated with these works by turning off equipment and vehicles when not in use and directing noise and light generating equipment away from residential properties where possible.

The site compounds on May Street and along Campbell Street will be used intermittently throughout the work for storage of materials and vehicle parking.
