

Night and day work at St Peters Interchange and Canal Road

Work will be undertaken to install electrical transformers at the Motorway Operations Centre near the intersection of Canal Road and Princes Highway, from 9pm Saturday 9 March to 6pm Sunday 10 March. One eastbound lane on Canal Road will temporarily close at night to facilitate the delivery of the transformers. The map overleaf shows the location of these works.

What we're doing

One eastbound lane on Canal Road will temporarily close from 9pm Saturday 9 March to 8am Sunday 10 March to facilitate the delivery of the transformers, and traffic will be maintained in both directions. The delivery must be done at night when traffic volumes are lower for the safety of workers and motorists.

Work to install the transformers within the St Peters Interchange will continue throughout Sunday 10 March until 6pm (weather permitting).

How this affects you

We expect this work to be noisy. Every effort will be made to minimise noise and light spill associated with these works. We will turn off equipment and vehicles when not in use and direct noise and light generating equipment away from residential properties where possible.

Equipment used during work on Canal Road will include cranes, construction vehicles, lighting towers, semi-trailers and electric hand tools.

The St Peters Interchange site compound will be used throughout the work for storage of materials and vehicle parking.

If you have a question about this work, please call 1800 660 248 (toll free) and ask to speak with a member of the New M5 community engagement team or email info@newm5.com.au
