

Night work on May Street at the intersection of King Street and Princes Highway St Peters

Night work is scheduled to install Intelligent Transport Services (ITS) infrastructure on May Street at the intersection of King Street and Princes Highway. The ITS infrastructure will support new Closed-Circuit Television (CCTV) to monitor traffic and provide updated traffic information to local Variable Messaging Signs (VMS) to be installed.

What we're doing

Night work will be carried out to locate and remove existing ITS services and install new conduits. Work will include locating existing services with a scanner, excavating the current footpath and removing existing services, installing new power conduits and repairing the footpath. Please see the map overleaf to further explain the locations of this work. The work will schedule is:

- **Monday 29 April from 7pm to 5am**

Due to safety and traffic requirements, this work must take place at night outside of peak volume times.

Traffic changes

- The traffic lights at the intersection of May Street and King Street will not be operational during the work.
- Lanes closures will be in place at the intersection of May Street, King Street and Princes Highway. Two-way traffic at the intersection will be maintained in all directions under the direction of traffic control personnel. Please drive carefully and follow traffic signs when travelling in this area during this work.
- Pedestrian traffic will be maintained under traffic control.

How this affects you

Equipment used during the night work will include lighting towers, concrete saw, excavator, asphalt roller, traffic management and construction vehicles. Excavation work is expected to generate noise. Every effort will be made to minimise noise and light spill associated with this work by scheduling any work that may have higher noise impacts to take place early in the night, where possible. Every effort will be made to turn off equipment and vehicles
