Extended evening work hours for piling work on Gardeners Road, Alexandria

From **Monday 27 May to Friday 7 June**, piling work on Gardeners Road between Ricketty Street and Kent Road will be carried out on weekdays between 3pm and 10pm. This is to minimise the effects of piling work and associated vibration on nearby businesses during standard construction hours.

**What we’re doing**
Piling work has been ongoing on Gardeners Road since March 2019 to construct a safe and solid foundation for the new bridge linking Gardeners Road to the new St Peters Interchange over the Alexandra Canal.

Nearby properties may feel vibrations from piling activities and hear a low-pitched clanging sound as the hammer drives or vibrates pile liners into the ground.

To date this work has been carried out on weekdays during standard construction hours from 7am to 6pm. After consultation with nearby business, the New M5 Project has sought, and been granted, a change to these working hours.

We will continue to monitor the associated noise and vibration to ensure that levels are within allowed limits and that an hour-long respite break is scheduled for every three hours of piling work.

Piling is taking place in the area shown on the map overleaf.

**How this affects you**
The piling work is expected to generate noise and vibration. An independent vibration specialist has been engaged to ensure compliance with all the relevant regulations. Temporary traffic changes are in place around the work area. Please follow the direction of traffic control and signage.

Equipment used during the work will include cranes, excavators, concrete removal trucks and a piling rig.
