Night work on Unwins Bridge Road and Bedwin Road, St Peters

Work will be undertaken to upgrade utility services on the eastern side of Unwins Bridge Road near the Campbell Street intersection and to locate existing services on the eastern side of Bedwin Road approximately 100 meters north of the Campbell Street intersection. This work is scheduled to take place at night for the safety of pedestrians, motorist and workers.

What we're doing
Night work will be undertaken to decommission an existing underground water main and install a new underground water pipe on the eastern side of Unwins Bridge Road near the Campbell Street intersection. Work will also take place to locate an existing watermain on the eastern side of Bedwin Road approximately 100 meters north of the Campbell Street intersection. This work will not impact traffic on Unwins Bridge Road, Bedwin Road, Campbell Street and May Street.

Please note, a Sydney Water night time service outage in connection with this work will be conducted on Monday 17 June between 10pm and 3am. Some properties in the area may be impacted, however Sydney water will notify affected customers.

How this affects you
Equipment used during this work will include an excavator, road saw, vacuum truck, construction vehicles, compaction equipment, lighting towers, hand tools and traffic control. This work is expected to generate intrusive noise. Every effort will be made to minimise noise and light spill associated with this work by turning off equipment and vehicles when not in use and directing noise and light generating equipment away from residential properties where possible.

The site compounds on May Street and along Campbell Street will be used intermittently throughout the work for storage of materials and vehicle parking.

If you have any questions or would like to make a complaint about this work, please call 1800 660 248 (toll free) and ask to speak with a member of the New M5 community engagement team or email info@newm5.com.au.
