

Piling work within the St Peters Interchange construction site

Piling work will be conducted within the St Peters Interchange construction site on Saturday 15 December from 1pm to 6pm.

In the event of inclement weather work this will take place early 2019. If this occurs, you will be notified prior to this work.

What we're doing

The piling work involves driving large concrete or steel beams into the ground to about 40 metres below the surface.

We will be using a piling rig and light vehicles to complete this work.

How this affects you

Although this work will take place in the middle of the St Peters Interchange site; you may hear some noise and feel some vibration.

Noise monitoring will be conducted for activities undertaken outside of standard construction hours.

When

Saturday 15 December 2018
(weather permitting)

Hours of operation

Work will be undertaken
between 1pm to 6pm

Where

St Peters Interchange
