

Nightwork at M5 East exit ramp Princes Highway, Arncliffe

Night work is needed during the M5 East shutdown period for the exit ramp onto Princes Highway, Arncliffe.

What we're doing

Two boreholes will be drilled over four nights during the M5 East shutdown period from Sunday 19 August to Wednesday 22 August 2018 (weather permitting).

A borehole is a narrow shaft bored in the ground, either vertically or horizontally. The borehole is being drilled as part of investigations to ensure there is no conflict with subsurface utilities or features that will interfere with the project.

This work needs to be undertaken outside of standard construction hours for the safety of workers and motorists. A map showing the locations of the boreholes is provided overleaf.

Equipment used will include a drill rig machine, hand tools and lighting to complete the works.

How this affects you

There may be some impact to residents during this work, including noisy machinery and the use of lighting. We will make every effort to minimise these impacts by not idling plant and equipment when not in use and facing lighting towers away from any residential properties.

We apologise for any inconvenience this may cause.

If you have a question about this work, please call 1800 660 248 (toll free) and ask to speak to a member of the New M5 community engagement team or email info@newm5.com.au.
