

Heritage salvage

The New M5 project team has been working to ensure items salvaged from heritage properties in St Peters are returned to residents in the community, free of charge. As part of our commitment to maximising the reuse of salvaged items, we have prepared a catalogue of more than 460 salvaged items.

What items are available?

Items have been catalogued, including fireplaces, window frames, front doors, chimney pots and veranda railings and are being made available to the local community.

How can I apply to receive an item?

To apply for an item, review the catalogue and complete the registration form. You will need to list the package ID and item description of each of the items you are interested in. For probity purposes, the registration forms and supporting documentation should be posted directly to:

O'Connor Marsden & Associates
New M5 Heritage
Locked Bag 3002
Australia Square NSW 1215

Registration forms **should not** be sent directly to WestConnex.

Why are some items bundled together?

Following feedback received during the M4 East heritage salvage redistribution process, some items have been bundled together into packages.

This will benefit applicants who require multiple items (e.g. 5 heritage windows and their frames). Please keep in mind if you are successful in applying for a bundled package, you are agreeing to take all the items included in that package.

Who can apply?

Anyone in Sydney can register their interest in an item from the catalogue, however returning the items to the area from which they were salvaged is a priority for the New M5 project team. Items will be allocated to members of the community in the following order of preference:

Do I have to pay to obtain an item?

No. The items will be provided and delivered free of charge to properties within the Sydney metro area.

BUILDING OUR FUTURE

Constructed by

1. Applicants who have had their properties acquired for the New M5 project and who register an interest in items from the property they previously owned will be automatically successful
2. Applicants who have had their properties acquired for the New M5 project and who register an interest in items from another property acquired for the New M5 project
3. Applicants who own property in St Peters and who register an interest in items salvaged from within the suburb where they own property
4. Applicants who own property in the vicinity of the New M5 project
5. Any other applicant from Metropolitan Sydney will be considered if no applicants from the above four categories register interest in an item.

What happens if multiple people apply for the same item?

Where there are multiple registrations of interest for an item, a lottery system will be used to allocate the item in line with the order of preferences listed above. In order to ensure local community members are given priority preference, applicants must provide a copy of their most recent rates notice with the completed registration form, as evidence of property ownership. The location of your property will determine which preference category you are in.

Where can I review the catalogue?

The heritage salvage catalogue can be viewed online at westconnex.com.au/heritage-newm5 or in hard copy at the following locations:

New M5 Community Information Centre
 27 Burrows Road, St Peters
 9:00am-5:00pm Monday to Friday
 (excluding public holidays)

When do registrations close?

All registrations must be received by **5 June 2017**. Registrations received after this date will not be accepted.

What happens to items that no one expresses an interest in?

If no one expresses an interest in an item, it will be offered free of charge to local heritage salvage operators and community groups. This will be done in consultation with local councils, to ensure such items are available for reuse in the future.

How will you notify successful applicants?

Successful applicants will be contacted by a representative from O’Connor Marsden & Associates to notify them of which items they will receive. Successful applicants will also be contacted by a representative from Grace Business Services to arrange delivery of the item(s).

Can I get the item delivered to my property?

Yes. The New M5 project team have engaged Grace Business Services, who will deliver the items free of charge to successful applicants within the Sydney metro area. It is the responsibility of the applicant to ensure they have adequate space to store items on their property. Items will be delivered to successful applicants from late July 2017. Where possible, the item(s) will be delivered as per the times requested in successful applicants’ registration form.
