

## Preparation work for asphaltting within the fenced construction area on Campbell Street (east) between Crown Street and Barwon Park Road, St Peters

Quick Dry Primer (QDP) will be sprayed on the road surface within the fenced construction area on Campbell Street (east) on Thursday 11 April 2019 between 10am and 12pm. The use of QDP is standard practise during road construction and is non-toxic, however the material is flammable and has a strong odour.

### What we're doing

We will spray a layer of QDP on a section of road surface within the fenced construction work area on the northern side of Campbell Street between Crown Street and Barwon Park Road. QDP is commonly used to waterproof road pavement and will also serve as a primer ahead of asphaltting work in this location.

### Residents and businesses within 30 metres of the work area

The application of QDP within the fenced construction area is not considered to pose a health risk to nearby residents and business, however the material is flammable and has a strong odour. We advise residents and businesses located within 30 metres of the work area (identified in the map overleaf) who wish to stay in their property, to close doors and windows during the 2 hour work period.

All New M5 Project Safety and Environmental regulations will be adhered to during this work.

### Footpath closure on Campbell Street (east)

The footpath on the northern side of Campbell Street (east) between Princes Highway and Barwon Park Road will be closed for the duration of the work on Thursday 11 April from 10am to 12pm. Traffic control personnel and signage will be in place to detour pedestrians via Princes Highway and Barwon Park Road.

This work will not impact traffic on Campbell Street (east), Crown Street and Barwon Park Road.

If you have a question about this work, please call 1800 660 248 (toll free) and ask to speak with a member of the New M5 community relations team or email [info@newm5.com.au](mailto:info@newm5.com.au).
