

Night work on Unwins Bridge Road, May Street and Princes Highway St Peters

Night work will take place on Unwins Bridge Road to remove redundant overhead cables, on May Street to upgrade underground utility services and on Princes Highway to install concrete barriers.

Due to safety and traffic requirements this work will take place at night outside of peak volume times.

1) Night work on Unwins Bridge Road

Night work will be undertaken on **Wednesday 8 May from 7pm to 5am** to remove redundant overhead communications cables from power poles along the eastern side of Unwins Bridge Road from the Campbell Street intersection approximately 150 meters south towards Conway Place.

Parking restrictions will be in place around the work area along the eastern side of Unwins Bridge Road from **7am Wednesday 8 May** to allow for an elevated work platform to access and remove the cables during the night work shift.

Traffic control personnel will be in place for the duration of the work to assist pedestrians around the work area. There will be no traffic changes associated with this work.

2) Night work on May Street

On **Thursday 9 May from 7pm to 5am** night work will be carried out to locate and remove existing ITS services and install new conduits on the western side of May Street at the intersection of King Street and Princes Highway. Work will include locating existing services with a scanner, excavating the current footpath and removing existing services, installing new power conduits and reinstating the footpath.

Traffic changes on Thursday 9 May from 7pm to 5am

- The traffic lights at the intersection of May Street and King Street will not be operational during the work.
- Lane closures will be in place at the intersection of May Street, King Street and Princes Highway. Two-way traffic at the intersection will be maintained under the direction of traffic control personnel. Please drive carefully and follow traffic signs when travelling in this area.

1) Unwins Bridge Road

Wednesday 8 May from 7pm to 5am

2) May Street

Thursday 9 May from 7pm to 5am

3) Princes Highway

Thursday 9 May from 7pm to 5am

Notification No.681

Constructed by

- Pedestrian traffic on May Street and King Street will be maintained under traffic control.

3) Night work on Princes Highway

Concrete barriers will be placed on the western side of Princes Highway for approximately 60 metres north and 6 meters south from the current location at the Campbell Street intersection. This work will take place on **Thursday 9 May from 7pm to 5am** to establish a work area ahead of footpath, driveway and kerb construction in this location.

Traffic changes on Thursday 9 May from 7pm to 5am

- Northbound lane closure on Princes Highway. Two-way traffic will be maintained on Princes Highway under the direction of traffic control.
- The footpath on the western side of Princes Highway, 60 meters north and 20 meters south of Campbell Street will be temporarily closed during the night work for the safety of pedestrians and workers. Traffic control signage and personnel will be in place to detour pedestrians around the work area.

Temporary removal of on-street parking

Once the concrete barriers are in place, approximately four on-street parking spaces will be temporarily restricted in this area from Thursday 9 May until work to reconstruct the footpath, driveway and kerb is complete.

How this affects you

Equipment used during night work on Unwins Bridge Road and Princes Highway will include an elevated work platform, crane, hand tools, lighting towers, construction vehicles and traffic control. This work is expected to generate some noise.

Equipment used during night work on May Street will include lighting towers, concrete saw, excavator, vacuum truck, rock breaker, jackhammer, traffic management and construction vehicles. Excavation work is expected to generate intrusive noise.

Every effort will be made to minimise noise and light spill associated with this work by scheduling any work that may have higher noise impacts to take place early in the night, where possible. Every effort will be made to turn off equipment and vehicles when not in use and use non-tonal reversing beepers on all machinery. Noise generating equipment and lights will be directed away from properties where possible.

If you have any questions about this work, please call 1800 660 248 (toll free) and ask to speak with a member of the New M5 community engagement team or email info@newm5.com.au.
