

**19 October 2016**

## **Night work - Gardeners Road, Kent Road, Bourke Street and Bourke Road, Mascot**

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. Visit [westconnex.com.au/NewM5](http://westconnex.com.au/NewM5) for more information.

To inform the detailed design for the New M5, night work to locate underground utility services is required at the following locations:

- Bourke Road
- Bourke Street
- Gardeners Road
- Kent Road

A map showing the work locations is provided overleaf.

### **Timing and work hours**

Night work will be carried out from **Monday 24 October 2016** and is expected to take two weeks to complete, weather permitting.

Work will occur between **8.00 pm and 5.00 am from Monday to Saturday** to reduce impacts on road users and ensure the safety of workers. Every effort will be made to keep noise to a minimum including completing noisy works early in the night where possible. No work will be carried out on Sunday or public holidays.

### **Work activities**

The work will involve:

- scanning the ground
- inspecting and cleaning utility pits and lines
- excavating a small hole using high pressure water from a vacuum truck
- traffic and pedestrian management to ensure the safety of motorists, pedestrians, cyclists and workers.

Equipment used during the work will include concrete cutting saws, a compactor, hand tools, light vehicles, a vacuum truck and a small truck.

If you have a question or complaint about this work, please call 1800 660 248 (24 hours) and ask to speak to a member of the New M5 community engagement team.

**ABOUT WESTCONNEX plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.**
