

Night time traffic changes on Campbell Street (west) and surrounding streets, St Peters

Work is ongoing to install and upgrade utilities along Campbell Street and surrounding streets. Night work will take place on Campbell Street near the intersections of St Peters Street, Church Street and Princes Highway. This work will be conducted at night when traffic volumes are lower for the safety of workers, motorists, cyclists and pedestrians.

What we're doing

Telstra cable haul communications work will take place. This work is not expected to have high levels of associated noise.

Work will take place at the following locations:

Wednesday 4 April and Thursday 5 April, 7pm to 5am

- Princes Highway northbound lane near the Campbell Street intersection
- Church Street at the Campbell Street intersection
- St Peters Street and Campbell Street intersection

Please see the map overleaf to better explain the location of this work

Traffic changes

Wednesday 4 April and Thursday 5 April, 7pm to 5am

- Princes Highway northbound lane closure near the Campbell Street intersection
- Stop / slow traffic set up will be in place around the St Peters St and Campbell Street intersection
- Stop / slow traffic set up will be in place on Church Street
- Traffic will be maintained in both directions on Campbell Street, Princes Highway, St Peters Street and Church Street

Temporary parking restrictions will be in place on Church Street and St Peters Street from 7am Wednesday 4 April to 5am the morning of Friday 6 April. Traffic control will be in place around the work areas and on surrounding streets to assist road users through the traffic changes.

BUILDING OUR FUTURE

Constructed by

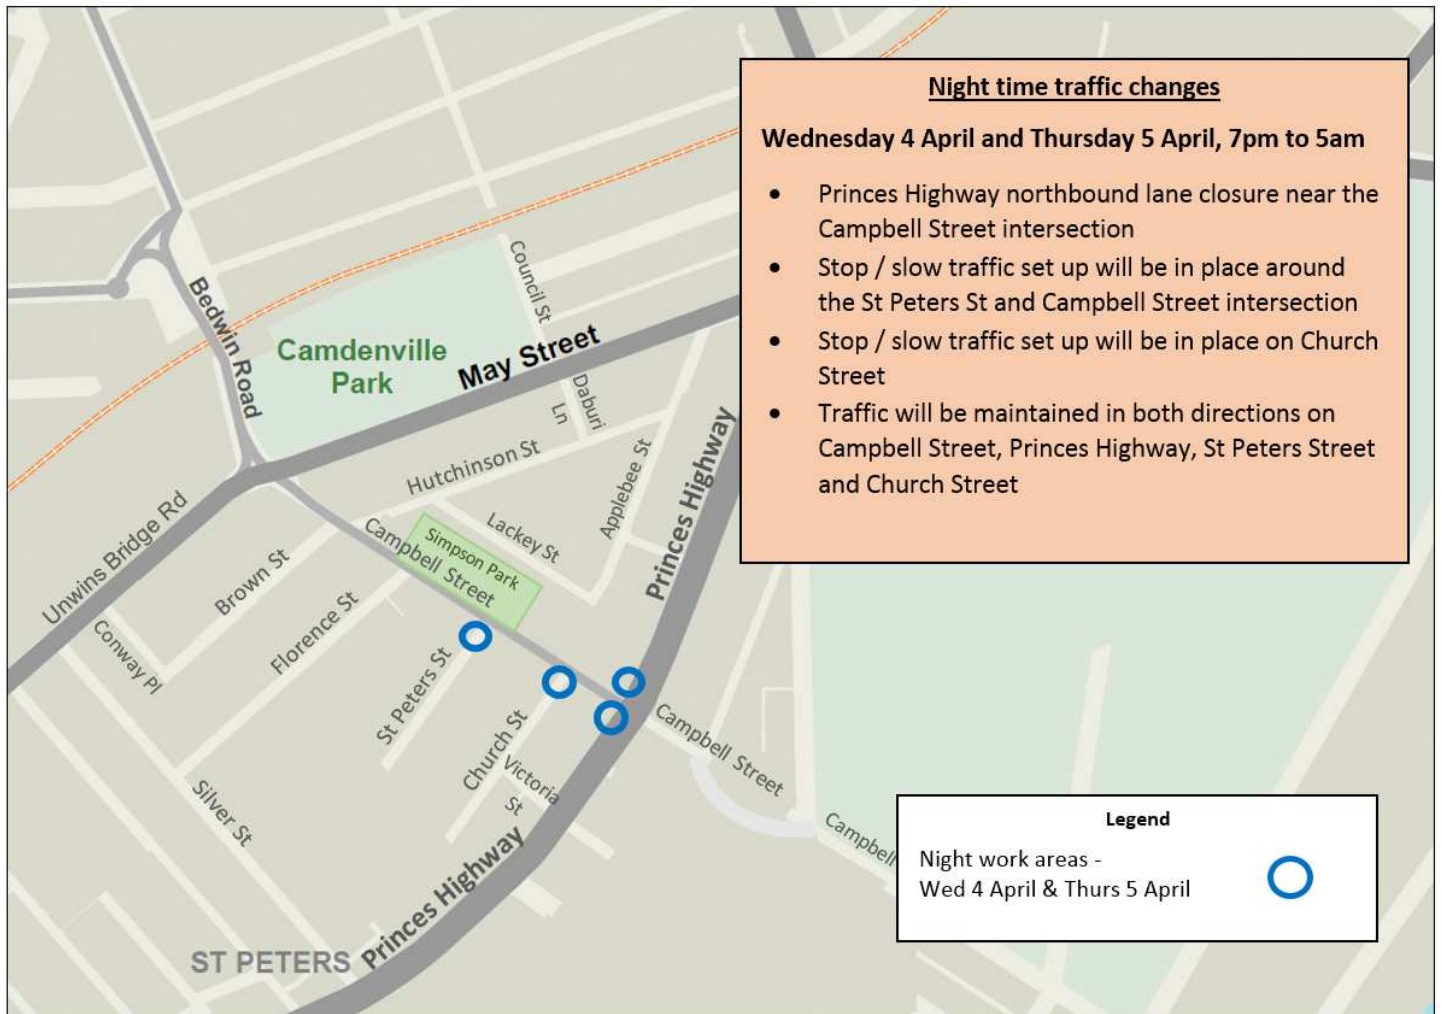

Equipment used during the night work will include an electric winch, hand tools, light vehicles and lighting towers.

The site compounds along the southern side of Campbell Street will be used intermittently throughout the night work for storage of materials and vehicle parking. This work is expected to create minimal impact to nearby residents.

Every effort will be made to minimise noise and light spill associated with this work by

- turning off equipment and vehicles when not in use
- using non-tonal reversing beepers on all machinery during night work
- directing noise generating equipment and lights away from residential properties where possible
