Night work on the M5 East at Kingsgrove

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. For more information, visit westconnex.com.au/NewM5.

As part of the ongoing construction works at Kingsgrove, night work will be undertaken in sections of the road verge on the M5 East between Kingsgrove Road and King Georges Road. A map showing the location of the work is provided overleaf.

Due to the high traffic volumes on the M5 East and for the safety of workers and motorists, this work will be carried out over four nights during the existing M5 East maintenance shutdown period from **Sunday 13 November 2016**. The work will be undertaken between **10.00 pm and 5.00 am**.

The work to be carried out includes:

- Installing stormwater structures from the eastbound lane of the motorway
- Removing some existing concrete barriers from the road verge and installing new barriers
- Removing noise wall panels along the eastbound and westbound lane of the motorway
- Clearing trees and vegetation on the motorway side of the noise walls.

Equipment to be used during this work will include trucks, excavators, lighting towers, concrete cutters, generators, cranes, compressors, pumps and tree cutting equipment.

Every effort will be made to minimise the impact of this work on nearby residents and businesses.

Traffic control and signage will be in place to assist road users through these changed traffic conditions.

If you have a complaint or enquiry about this work, please call **1800 660 248** (24 hours) and ask to speak to a member of the New M5 community engagement team.
