

4 January 2017

Night works on King Georges Road, Beverly Hills

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. Visit westconnex.com.au/NewM5 for more information.

As part of the project, drainage excavation work will be carried out on both the north and south bound carriageways of King Georges Road near the M5 Motorway, just north of the M5 Motorway interchange. A map showing the work area is provided overleaf.

Work on the south bound carriageway is now finished and work on the north bound carriage way will commence on **Monday 9 January 2017**. This work will take approximately **six weeks** to complete, weather permitting. To ensure the safety of motorists and workers, work will happen **between 9.00 pm and 5.00 am from Sunday to Thursday**. There will be no work on Friday night, Saturday night or public holidays.

Work will take place up to five nights a week. Noisy work will occur on a maximum of two consecutive nights. Noise will be monitored and every effort will be made to minimise the impact of work.

The work will involve cutting the road surface using heavy machinery fitted with saws. The material will be loaded onto trucks and stockpiled. New drainage will then be installed and pavement reinstated. All worksites will be restored to their previous condition after the work is completed.

Traffic control and signage will be in place to assist road users, pedestrians and cyclists.

If you would like further information or have any specific concerns once the work commences, please call toll free **1800 660 248** (24 hours a day) and ask to speak to the King Georges Road Interchange Upgrade Community Engagement Manager.

Notification reference: 22a

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
