Installation of underground power cables - Rozelle, Lilyfield and Leichhardt

From **Wednesday 5 June**, we will be working to install an underground power cable between Leichhardt and the Rozelle Rail Yards.

The Rozelle Interchange is part of the M4-M5 Link and will provide a new underground motorway interchange to City West Link and an underground bypass of Victoria Road between Iron Cove Bridge and Anzac Bridge, with links to the future Western Harbour Tunnel.

The interchange in Rozelle will be mostly underground and located at the site of the old Rozelle Rail Yards. By building the interchange mostly underground, the project will deliver new active transport options in Rozelle and up to 10 hectares of new open space.

**What does the work involve?**

We will be installing a High Voltage (HV) power connection underground along local roads from the existing Leichhardt electrical sub-station at 133 Balmain Road to the Rozelle Rail Yards on Lilyfield Road, to provide power for construction.

This work will be carried out in sections and is expected to be completed by late 2019, weather and site conditions permitting. A map showing the location of the work is provided overleaf. This work includes:

- setting up temporary safe work areas with site specific environmental and traffic control, along the power connection alignment
- digging potholes to identify underground services and utilities
- digging a trench in the verge and parking lanes and installing electrical cables in the trench from Leichhardt electrical sub-station on Balmain Road to Rozelle Rail Yards site on Lilyfield Road
- constructing joint bays and pits
- connecting electrical services to existing networks
- backfilling trenches and re-instating ground surface to an appropriate condition
- testing and commissioning of electrical services.

**Contact Us**

If you have any enquiries about this work, contact the WestConnex info line on **1800 660 248**, email info@rozelleinterchange.com.au or visit westconnex.com.au/projects/m4-m5-link-rozelleinterchange for more information.

Our Community Information Centre will be open mid-2019. In the meantime, visit us at our temporary centre at 84 Lilyfield Road, Rozelle. Open **Monday to Friday, 9.00am and 5.00pm (except public holidays)**

Notification No.0011

Constructed by
Local community impacts
Work will mostly take place during our standard construction hours of **7.00am - 6.00pm Monday to Friday and 8.00 am - 6.00pm on Saturdays**, but some work will need to take place at night. We will notify you in advance about work outside of standard hours and keep you updated as the work progresses.

Equipment required for this work includes vacuum trucks, excavators, excavator mounted rock breakers, road saws, light vehicles, generators, concrete agitator trucks and other construction trucks and light vehicles, hand tools and jackhammers and cable pulling machines.

At times our work may be noisy and will temporarily impact traffic and parking in the local area. The project is committed to limiting these impacts to you by using non-tonal reversing beepers on all machinery; turning off equipment and vehicles when not in use; directing noise and light generating equipment away from homes where possible and installing noise blankets around our temporary work areas.

Streets affected include:

- Henry Street
- Lilyfield Road
- Norton Street
- Arthur Street
- City West Link
- William Street
- Allen Street
- Short Street

During work periods, temporary changes to parking, traffic and pedestrian routes around our work sites may be required to ensure the area is safe. Traffic control and signage will assist motorists, pedestrians and cyclists.

We thank you for your patience and apologise in advance for any inconvenience caused while we carry out this work.
