

## Ancillary facility – Former Roads and Maritime Services (RMS) Motor Registry, Five Dock

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

The M4 East will extend the existing M4 from Homebush to Haberfield via underground twin tunnels, each 5.5 kilometres in length and among the widest in the southern hemisphere. They will allow for three lanes of traffic in each direction, saving travel time for motorists and taking traffic off local roads. For more information, visit [westconnex.com.au/M4East](http://westconnex.com.au/M4East).

From **Tuesday, 18 April 2017** the M4 East Project will be utilising the existing buildings and car park on the corner of Ramsay Road and Henley Marine Drive, Five Dock. The site is owned by Roads and Maritime Services (RMS) and will be used by project personnel throughout the duration of construction.

A map showing the location of the site is provided overleaf.

Work to prepare the area for use will be undertaken between **7.00 am and 6.00 pm Monday to Friday** and **8.00 am and 1.00 pm on Saturday**. Once this work has been completed, the area may be accessed up 24 hours per day, 7 days per week. It is expected however that the area will be utilised predominantly during standard daytime construction hours.

Once work to repair and fit out the facility has been completed, the area will be used for the storage of material, as well as to facilitate a site office and spaces for project vehicles to park.

If you have an enquiry or complaint, please contact toll free 1800 660 248 and ask to speak to a member of the M4 East team or email [info@M4East.com.au](mailto:info@M4East.com.au).

Notification reference: N202

### ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
