

28 December 2016

## Site establishment – Euston Road, Huntley Street and Sydney Park Road, Alexandria

As part of the WestConnex New M5 project, Euston Road between Campbell Street and Maddox Street will be widened and the Sydney Park Road / Euston Road / Huntley Street roundabout will be upgraded to a signalised intersection.

The widening and upgrade work will be progressively delivered in stages and is expected to be completed by early 2020. The first stage of upgrades will involve working along the western side of Euston Road and at the roundabout at the intersection of Euston Road, Huntley Street and Sydney Park Road.

In preparation for the start of construction, site establishment and preparatory work will be undertaken throughout **January and February 2017**, weather permitting. A map showing the work area is provided overleaf.

### Work activities

Site establishment will involve:

- installing concrete barriers and fencing
- trimming and clearing trees and vegetation
- geotechnical and environmental drilling and surveying
- identifying and adjusting existing utilities services, such as power, water and gas
- clearing vacant buildings owned by Roads and Maritime Services, including removing hazardous materials
- implementing traffic management, including line marking and signage

All activities will be carried out in accordance with the necessary approvals.

### Traffic changes

Traffic changes will be in place during site establishment and ongoing throughout construction for the safety of road users, pedestrians, cyclists and workers, including:

- reduced speed limits
- footpath closures and detours
- removal of street parking
- lane closures
- modifications to the layout of Euston Road and the Euston Road / Sydney Park Road / Huntley Street roundabout

Traffic control and signage will be in place to guide motorists, pedestrians and cyclists through any changed traffic conditions.

### Footpath closures

During the first stage of widening work, the footpath along the western side of Euston Road between Campbell Road and Maddox Street will be closed and pedestrians detoured to the footpath on the opposite side of the road. Pedestrian access between Euston Road and Sydney Park will be maintained at two locations. A map showing the location of the footpath closure and detour route is provided overleaf. These footpath closures will be in place from early January 2017 and signage will be in place to guide pedestrians through the changes.

### Street parking

To facilitate the first stage of widening work, the street parking along the western side of Euston Road between Campbell Road and Maddox Street will be removed. The street parking will be progressively removed from early January 2017. Every effort will be made to maintain the street parking on the eastern side of Euston Road wherever possible.
