

## Ongoing traffic changes on Florence Street, St Peters

Ongoing day work and traffic changes will be taking place on Florence Street, St Peters to facilitate deliveries of new drainage culverts and associated deliveries into the site compound on the southern side of Campbell Street (west). These drainage culverts will form part of the new stormwater drainage system below the newly widened Campbell Street road pavement.

### What we're doing

A 250 tonne crane will be required for the ongoing day time delivery and unloading of concrete drainage culverts and associated materials into the site compound. To facilitate this work, day time traffic changes will be required on Florence Street, at the intersection of Campbell Street (west). These works will be ongoing until **August 2018**.

Florence Street will be closed to through traffic, or have a stop / slow traffic set up in place, intermittently during day work shifts between **March and August 2018**.

Traffic control will be in place around the work areas and on surrounding streets to manage road users through the changes.

Pedestrian will be assisted through the work area by traffic control personnel.

### Traffic changes

The work will either mean no through traffic or a stop / slow traffic set up between Florence Street and Campbell Street (west) for up to 95 day work shifts from **Monday 12 March 2018 to August 2018**.

Work hours will be on **Monday - Friday** between the hours of **7am to 6pm**.

### Detour via Silver Street during this time.

Please see the map overleaf to better explain the location of this work.

Residents will be updated via weekly email update of the scheduled culvert deliveries for the following week.

If you are not currently receiving weekly New M5 project email updates, please provide your email address to the new M5 Community Relations Team by emailing [info@newm5.com.au](mailto:info@newm5.com.au)

We apologise for any inconvenience this may cause.
