

## 22 December 2016

### Update on works at the Arncliffe construction site

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. For more information, visit [westconnex.com.au/NewM5](http://westconnex.com.au/NewM5).

Some of the construction works currently underway at the Arncliffe site will continue from **Wednesday 28 December to Friday 30 December 2016**. Work hours on these days will be from 6 am to 6 pm.

Work will involve:

- ongoing excavation of soft soil from the tunnel decline; and
- general plant maintenance.

A limited number of site crew will be undertaking the work during this time. A map of the work area is provided overleaf.

Equipment used throughout the work will include construction vehicles, concrete trucks, long-reach excavators, dump trucks, cranes, welding equipment, hand tools, ventilation fans and compressors.

### Minimising community impact

A noise wall and shipping containers have been installed along the Marsh Street site boundary, reducing the noise impact to surrounding residents. We expect the impact of this work on the community to be minimal.

If you have a question about this work, please call 1800 660 248 and ask to speak to a member of the New M5 community engagement team or email [info@newm5.com.au](mailto:info@newm5.com.au).

Alternatively, you can visit the Community Information Centre opened at 27 Burrows Road, St Peters. The Centre is open on Monday to Friday from 9am to 5pm.
