

24 July 2017

Establishment of temporary site compound - Tempe Recreation Reserve

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. For more information, visit westconnex.com.au/NewM5.

In order to deliver the project safely and efficiently, a temporary site compound to support tunnelling work will be established at the **Tempe Recreation Reserve** encompassing some of the netball courts, adjacent vegetation mound area and footpath. The temporary site will support construction of the New M5 tunnels under the Cooks River.

The establishment of the temporary site compound will result in the loss of access to three of the netball courts and the footpath beside the vegetation mound throughout the work. A map showing the location of the compound, vegetation area and closed footpath is provided overleaf. An alternative route for pedestrians is also shown on the map. There will be signage around the park to notify users of the closure of the footpath.

Timing and scope of work

Work is expected to commence **on 31 July 2017 and be completed by December 2017**. Work vehicles will enter the Reserve via Holbeach Avenue. Work will take place during standard construction hours from Monday to Friday between 7am and 5pm and on Saturday between 8am and 1pm.

The compound on the netball courts will contain a grouting station including a batch plant, rigs, a small crane and washout ponds. The adjacent mound vegetation area will be enclosed for safety reasons - there will be no significant impact to the vegetation area with only minor pruning required.

We apologise for any inconvenience this work may cause.

If you would like further information or would like to discuss the location of the site compound, please call 1800 660 248 and ask to speak to a member of the New M5 community engagement team or email info@newm5.com.au.

Notification no: 224

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
