

19 September 2017

Temporary site compound at Tempe Recreation Reserve

A temporary site compound will be established at the Tempe Recreation Reserve from 2 October 2017, and will be removed by the first quarter of 2018. The compound will support construction activities to excavate the New M5 tunnels under the Cooks River. A map showing the site compound is shown overleaf.

Scope of work

The compound will span across five netball courts, a vegetation mound, and the footpath which runs alongside the Cooks River. Standard construction hours will apply for ongoing work at the site compound. We will work **between 7am and 6pm on Mondays to Fridays, and between 8am and 1pm on some Saturdays.**

A grouting station, including a batch plant, rigs, a small crane and washout ponds will be contained within the netball courts section of the site compound. The adjacent vegetation mound area will be enclosed for safety reasons. There will be no significant impacts to the vegetation area.

Work vehicles will enter the Reserve via Holbeach Avenue. There will be signage at the reserve to notify users of the footpath closure. An alternative route for pedestrians using the reserve will be established.

We apologise for any inconvenience this work may cause.

If you would like further information or would like to discuss the location of the site compound, please call 1800 660 248 and ask to speak to a member of the New M5 community engagement team or email info@newm5.com.au.

Notification no: 278

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
