

Night work and road closure – Euston Road, Alexandria

As part of utilities upgrades, the utilities team have been conducting trenching work to install conduits for Telstra services at the intersection of Campbell Road and Euston Road. To complete the work, the team are required to backfill and tarmac reinstatement on the intersection of Campbell Road and Euston Road. They will also be relocating the concrete barriers along Euston Road (eastern verge) to the second stage location.

Timing of work

One shift of night work is required to complete the work on **Thursday 9 November** between **8.30pm and 5am**. This work will be conducted at night when traffic volumes are lower for the safety for workers, motorists and pedestrians.

Traffic changes

- Euston Road between Campbell Road and Sydney Park Road will be closed during this work except for emergency and local access. This means that between **8.30pm – 5am** on **Thursday 9 November** there will be local access only for businesses along Euston Road. Signage and traffic control will be available to assist motorists during temporary traffic changes. **Euston Road businesses are encouraged to use Burrows Road property access if available.**
- The intersection of Euston Road and Campbell Road will be closed during this work. Access to Campbell Road east will be via Princes Highway and Barwon Park Road.
- Other road closures as part of other works will be in place as per Notification 292 distributed on 20 October 2017.

Scope of work

The conduit installation involves potholing and digging a trench along the footpath and verge at the intersection. The trenching will start at the south end of Euston Road and head east into the site established at Campbell Road and Burrows Road. Noise impact from the work is expected to be moderate.

Once the conduits are installed, the trenches will be backfilled, the barriers will be removed and the verge and footpath will be reinstated. Please see image overleaf for the location of the work site.

Equipment used

Equipment used will include excavators, compactors, concrete saw, tip trucks, rock breakers, power tools, mobile lighting and hiab truck.

Noise mitigation measures will be in place and lighting towers used for this work will be oriented away from the Campbell Road terraces.

Minimising community impact

Every effort will be made to minimise noise and light spill associated with this work by:

- Scheduling noisy work to take place early in the night where possible
- Turning off equipment and vehicles when not in use
- Using non-tonal reversing beepers on all machinery
- Directing noise generating equipment and lights away from residential properties where possible
- Eco barriers will be in place to reduce noise.

Notification No:303
