

Trenching and Conduit Installation Night work on Burrows Road St Peters

Night work will be carried out to install Ausgrid and Optus conduits on Burrows Road St Peters. (See map overleaf).

What we're doing

The work will involve trenching of the existing footpath in front of Magic Glass and Canalside Interiors for the installation of Ausgrid and Optus conduits, backfill and reinstatement of the footpath, weather permitting. The work hours will be:

- Wednesday 11 April 6pm to 5am
- Friday 13 April 8pm to 5am

The equipment used will include trucks, cut saw, rock breaker, excavator, construction vehicles and lighting towers.

Traffic Changes

No additional traffic changes are associated with this work. As the work involves trenching of the footpath, pedestrians will receive assistance from traffic controllers to walk around the boundary of the work area.

How this affects you

There may be some impacts to residents during this work, including noisy machinery and lighting. We will make every effort to minimise these impacts by turning off equipment and vehicles when not in use, using non-tonal reversing beepers on all machinery and facing the lighting towers away from any residential properties. In addition every effort will be made to ensure that noisier work occurs earlier on in the night.

We apologise for any inconvenience this may cause.

If you have a question about this work, please call 1800 660 248 (toll free) and ask to speak to a member of the New M5 community engagement team or email info@newm5.com.au.
