

## Rock Hammering on Marsh Street Site - Arncliffe

Rock hammering will commence in your area from **Tuesday 17 April 2018** and will continue intermittently **until November 2018**. This work will take place underground, 60-65 meters below the Marsh Street construction site and other locations (please see map overleaf).

### What we're doing

Rock hammering works require us to use rock hammers and rock saws. This is to facilitate the trimming of the tunnel profile, levelling of the tunnel floor and the detailed excavation finishes that cannot be practically excavated by the roadheaders. The works will be carried out in various locations.

Rock hammering hours will be dependent on proximity to residential properties - several areas will work to standard construction hours plus some out of hour's work needed on occasion. Areas away from residential properties will have work 24/7.

Hours work will be as follows:

- Monday to Friday 7am to 10pm
- Saturdays 8am to 10pm
- Sundays 8am to 6pm

No rock hammering activities will take place on Public Holidays.

We will use excavators with hammers attachments, rock saws and haul trucks.

### How this affects you

There should be little impact to residents. However there may be a slight tapping sound that can be heard when work is being done closer to the residential areas.

If you have a question about this work, please call 1800 660 248 (toll free) and ask to speak to a member of the New M5 community engagement team or email [info@newm5.com.au](mailto:info@newm5.com.au)
