

Continuous weekend work at Sydney Park Roundabout Euston Road, Alexandria

Work has commenced to transform the Sydney Park Roundabout into a signalised intersection to allow for better traffic flow in the area. The first stage has involved upgrading and moving all existing utilities into the new road alignment. In order to complete this stage the crew will require seven weekends of continuous work to take place. **This notification refers to the first two weekends of work only.**

What we're doing

The work includes:

- Continuing installation of a large and small water main under the roundabout
- Installing new drainage down the centre of Sydney Park Road towards the roundabout
- Installing communication conduits across Sydney Park Road

Both activities will involve:

- Investigating the location of existing services
- Excavating a deep trench in the ground
- Installing water main and drainage pipes and communication conduits
- Reinstating the ground

Traffic changes

There will be major traffic changes in place for each weekend of work between **23 March - 26 March and 6 April - 9 April**. The changes will be similar to previous weekend work carried out at this location and will include:

- **Only one traffic movement permitted through the roundabout at a time with the remaining motorists required to queue.** Please expect delays
- No westbound access into the roundabout from Huntley Street

Local residents are encouraged to avoid the roundabout and use Burrows Road, Canal Road, Bourke Road and Maddox Street instead. A map showing the expected traffic changes is shown overleaf.

When

Friday 23 March - Monday 26 March

Friday 6 April - Monday 9 April
(Weather permitting)

Hours of operation

Continuous work between
9pm Friday and 6am Monday

BUILDING OUR FUTURE

Constructed by

Noise impacts

This work is expected to generate noise. Residents who are expected to be highly impacted by noise from the work will be contacted directly by the Project. The Project will further reduce noise generated at night from the work by:

- Installing noise blankets around the work area
- Conducting noisier activities earlier in the night or daytime where possible
- Turning of vehicles when they are not in use
- Keeping conversations between workers and traffic control quiet

Continuous work at Sydney Park Roundabout on weekends beginning Friday 23 March & Friday 6 April

Traffic lane closed for duration of work

New M5 work area

Permitted traffic movements for the duration of the work

Traffic hold points. This is where vehicles will queue prior to entering the roundabout
