

25 May 2016

Dear Resident

Night works – M5 South West Motorway, Beverly Hills

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. Visit westconnex.com.au/NewM5 for more information.

As part of the project, drainage excavation work will be carried out on the M5 Motorway, between King Georges Road Interchange and Cooalongatta Road Bridge. A map showing the work areas is provided overleaf. Work will first be undertaken in Work Area 1 and then in Work Area 2.

This work will commence from **Monday, 6 June 2016** and will take eight weeks to complete. To ensure the safety of motorists, this work will take place **between 9.00 pm and 5.00 am**, weather permitting.

The work will involve cutting the road surface using heavy machinery fitted with saws and hammer drills. The material will be loaded onto trucks and removed via the motorway. New drainage will then be installed.

Work will take place up to five nights a week. Noisy work will occur on a maximum of two consecutive nights. Noise will be monitored and every effort will be made to minimise the impact of work.

If you would like further information or have any specific concerns once the work commences, please call toll free 1800 660 248 and ask for Christine Keyes or email KGRIUcommunity@fultonhogan.com.au.

Notification reference: 015

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
