

11 September 2015

Dear Resident

The King Georges Road Interchange is being upgraded to reduce local congestion and improve access to the M5 corridor. Work involves widening and extending the eastbound on-ramp and westbound off-ramp between King Georges Road and the M5 East.

King Georges Road Interchange project update

Work has begun on construction of new spans on the bridges at Penshurst Rd, Narwee and Coo롱gatta Road, Beverly Hills. This work involves constructing new concrete piles and an additional bridge deck. Work has also started on new retaining walls along the motorway to allow for the widening of the ramps. Excavation and earthworks will take place over the next three months to construct the retaining walls.

Local traffic changes – Coo롱gatta Road Bridge, Beverly Hills

From 15 September until late 2016 the Coo롱gatta Road Bridge over the M5 East Motorway will be temporarily reduced to one lane. Temporary traffic lights will be used to alternate the direction of traffic flow across the bridge. Temporary traffic lights will be in place at the intersection of Allambee Crescent and Coo롱gatta Rd.

During this period, the intersection of Booragul Street and Coo롱gatta Road will become left turn only from Booragul Street onto Coo롱gatta Road and there will be no entry to Booragul Street from Coo롱gatta Road.

Please drive carefully, follow the signs and allow extra travel time. Delays of up to 10 minutes may be experienced during peak periods.

Local traffic changes – Penshurst Road, Narwee

From 14 September until late 2016 there will be changed traffic conditions on Penshurst Road at Narwee. Traffic will be maintained each direction, however motorists should expect some short delays and follow the direction of traffic controllers.

Cyclist and pedestrian access changes

There will be changes to pedestrian access on Penshurst Road at Narwee with one footpath closed during work hours, from 14 September until late 2016. Pedestrians will be detoured to the opposite of the road.

The shared path north of the motorway between the Tallawalla Street Underpass and Kirrang St north has been reopened. The shared path on the southern side of the motorway between Tallawalla Street Underpass and Coo롱gatta Road south will be closed in late September. Cyclists and pedestrians will be detoured along local streets and can rejoin the shared path at the corner of Allambee Crescent south and Coo롱gatta Road.

From 5am Tuesday 15 September the M5 East Motorway shoulder will be closed between Belmore Road, Riverwood and Bexley Road, Kingsgrove. Cyclists will not be able to ride on the motorway shoulder. Signs and road markings will be in place on the motorway to direct cyclists.

Cyclists travelling east will be detoured off the motorway at Belmore Road. Cyclists travelling west on the motorway will be detoured at Bexley Road. They will be able to rejoin the motorway at Belmore Road.
