

9 August 2016

Night work to install concrete barriers and other site establishment work on the M5 East at Kingsgrove

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. For more information, visit westconnex.com.au/NewM5.

As part of construction site establishment at Kingsgrove, work will continue to install concrete safety barriers on the M5 East between Kingsgrove Road and King Georges Road. The concrete barriers will link up with the safety barriers currently in place for the King Georges Road Interchange Upgrade works. A map showing the location of the work is provided overleaf.

Due to the high traffic volumes on the M5 East and for the safety of workers and motorists, the work will be carried out during the existing M5 East maintenance shutdown period from **Sunday 14 August 2016**. The work will be undertaken over four consecutive nights **between 10.00 pm and 5.00 am**.

The work will involve:

- Installing concrete safety barriers
- New line markings to reduce lane widths
- Removing trees and vegetation on the motorway side of the noise walls
- Relocating the Intelligent Transport Systems hardware
- Installing construction site access gates from the motorway.

Equipment used during this work will include trucks, lighting towers, concrete cutters, generators, cranes, compressors, pumps and tree cutting and mulching equipment. Every effort will be made to minimise the impact of work on nearby residents and businesses.

The slight narrowing of lanes on the M5 East will be for the duration of construction. Traffic control and signage will be in place to assist road users through these changed traffic conditions.

If you have a complaint or enquiry about this work, please call 1800 660 248 (24 hours) and ask to speak to a member of the New M5 community engagement team. You can also subscribe to receive email updates at westconnex.com.au/subscribe.

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
