

14 September 2016

Night works – Unwins Bridge Road, St Peters

Work is underway on WestConnex which involves widening and extending the M4 and M5 and joining them to create a free-flowing motorway network.

As part of the project, the New M5 will duplicate the existing M5 East corridor, doubling vehicle capacity and easing congestion between St Peters and Beverly Hills. It will include twin tunnels, an upgrade of King Georges Road Interchange and a new interchange at St Peters. Visit westconnex.com.au/NewM5 for more information.

Further to the notification on 20 June 2016, work is underway to install underground power cabling from St Peters to the New M5 construction site at the corner of Canal Road and the Princes Highway.

From **Monday 19 September**, cabling work will be undertaken across Unwins Bridge Road near Silver Street. This work will take up to 10 shifts to complete, weather permitting. A map showing the location of the work is shown overleaf.

Due to high traffic volumes on Unwins Bridge Road, this work will be undertaken between **8.00 pm and 5.00 am from Monday to Saturday**. There will be no work on Sunday or public holidays.

The work will involve:

- excavating and trenching the road
- installing and connecting power cables
- implementing traffic and pedestrian management to ensure the safety of motorists, pedestrians, cyclists and workers.

Equipment used during the work will include an excavator, concrete-cutting saws, vacuum truck, hand tools, light vehicles and trucks.

Every effort will be made to minimise impacts associated with this work, including completing noisy works earlier in the night where possible.

Changed traffic conditions, including reduced speed limits, lane closures and footpath detour along Unwins Bridge Road, will be in place during this work. Traffic control and signage will be in place to assist road users, pedestrians and cyclists through the changed conditions.

Over the coming weeks, cabling work will be undertaken in other streets in St Peters during the day and night. If you are travelling through the area, please allow extra time for your journey and follow the signs and directions from traffic controllers.

If you have any questions about this work, please call toll free 1800 660 248 and ask to speak to a member of the New M5 community engagement team.

Notification No. 140

ABOUT WESTCONNEX

WestConnex is part of a broader transport plan for Sydney which includes improved public transport, such as Sydney Metro and light rail, as well as better, more reliable motorway solutions. More than two-thirds of WestConnex will be built underground. Once complete, motorists will be able to avoid up to 52 sets of traffic lights and enjoy significant travel time savings.
